

At SCCG, we specialize in sweepstakes and social casino gaming, offering our clients expert guidance and support.

Our thorough understanding of the differences between sweepstakes and social casino platforms makes us a trusted partner for leading gaming companies. We help our partners grow their businesses, improve user experiences, and navigate the online gaming landscape with confidence.

SWEEPSTAKES CASINOS

Offer a promotional form of online play where participants use in-game currency, like Gold Coins, for gaming. These coins cannot be redeemed for cash, emphasizing the non-monetary entertainment aspect. However, Sweepstakes Coins, awarded as bonuses or through purchases, allow for cash prize or gift card redemptions, highlighting a unique promotional play aspect.

SOCIAL CASINOS

Primarily operate for entertainment, with players engaging in games for fun and fostering a community of gaming enthusiasts. Although typically there are no cash redemption possibilities, some social casinos do offer real casino rewards within their reward centers. Additionally, certain social casinos incorporate features similar to sweepstakes casinos.

Our expertise spans both realms, ensuring that our services are tailored to the specific needs and legal frameworks governing each type of casino.

OUR SERVICES

At SCCG, we offer a comprehensive range of services designed to empower sweepstakes and social casino platforms to thrive globally:

LEGAL OPINIONS AND COMPLIANCE

Navigate the complex legal landscape with our expert guidance on compliance matters, ensuring your platform operates within regulatory frameworks.

KYC AND AML SUPPORT

Implement robust Know Your Customer (KYC) and Anti-Money Laundering (AML) practices with our expert support, safeguarding your operations and reputation.
